

CODEFINDER Shakespeare Archive

Date: March 9, 2026

Claim level: External-safe diagnostic packet

Corpus normalization

Wright local images: 53

Aspley local images: 67

Shared folio-sequence images: 53

Included shared pairs: 41

Unmatched Aspley extras: 14

Key findings

High-confidence OCR totals: Wright 38,909, Aspley 48,142.

Legacy page-variance diagnostic: 40 of 53 pairs flagged.

Partial sonnet mapping: Wright 4, Aspley 16, same-page 1.

Interpretation

This packet presents provisional computational evidence and diagnostic comparison only.

Design similarity is not same-object proof.

The normalized Shakespeare lane supersedes the older contradictory report cluster.
